```

Overview

This pipeline run contained **109** files. In total, we lost **4739** sequences, or **19.8%** of the input.

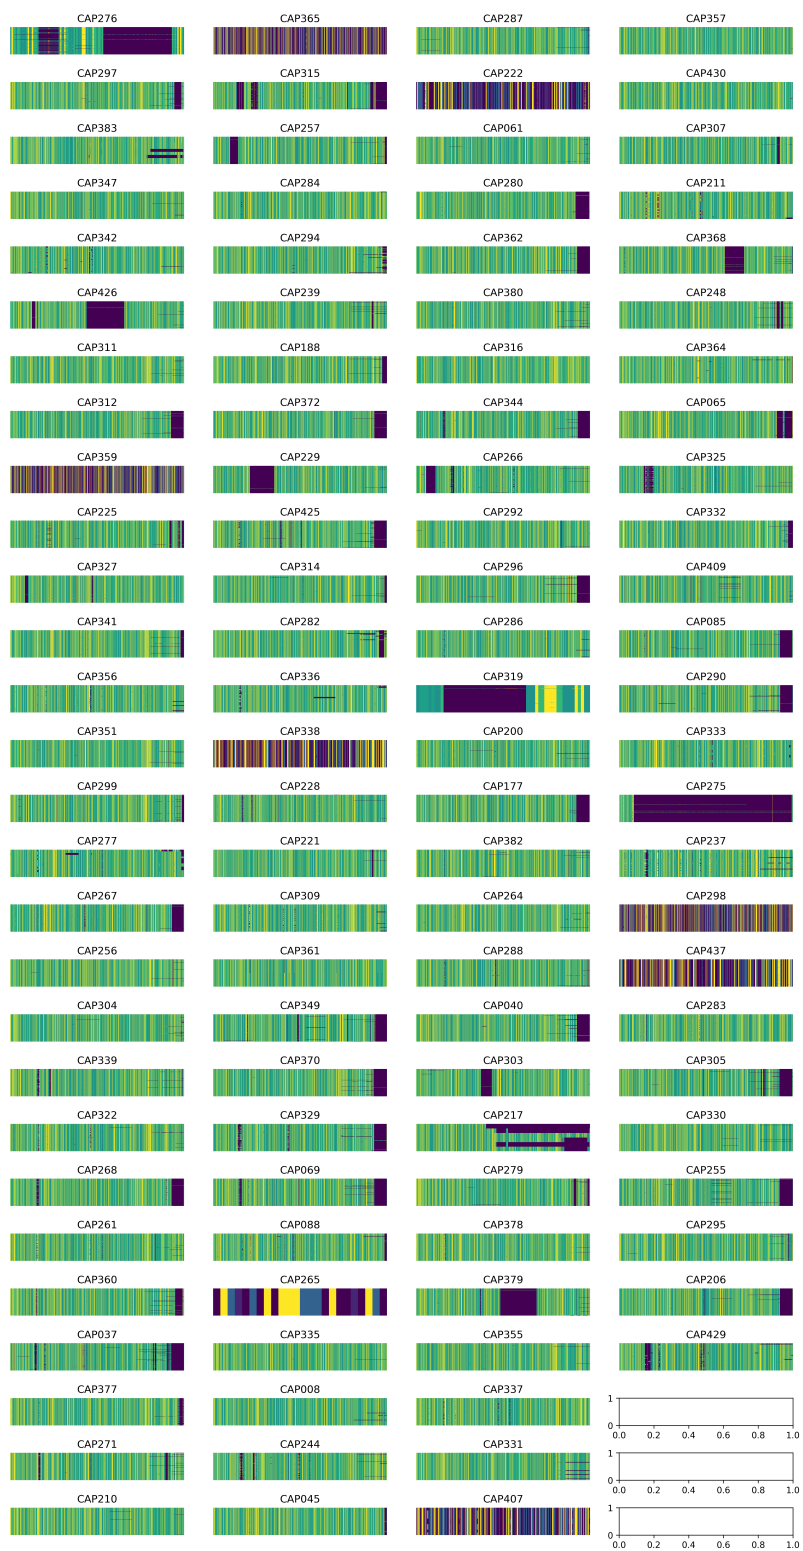

Pipeline Point	Number of sequences
pre	23938
post	19199

Sequence Loss Overview

There is meant to be an upset plot here

MSA Quality Check

An overview of the resulting nucleotide multiple sequence alignments are shown below. Gaps are shown in purple, while other nucleotides are shown in green, yellow, blue, light putple.

Sequence Length

The plot below shows the sequence length distribution for the samples **that pass filter**.
